It was not so under our Statues of 1838 and 1842. Why the Statute of 1852 was silent on this matter, and why its authors blotted out from our laws all penalties intended to guard against the desecration of the Salbath, we cannot We leave it for others to answer, convinced that the People's Legislature will commemorate the session by again making Indiana a Sabbath-honoring State.—St. Jo-

If that will not preserve the sanctity of the Sabbath, we doubt the efticacy of any statutory provision that the widom of the Legislature may devise.

Is it necessary that the People's Legislature should repeat that injunction in order to give it respectability? Wicked as you think the "old liners" were, in remaining silent upon the subject, we beg leave to suggest that they did not repeal it, or attempt to strike the Sabbath out of existence.

They did accidentally or otherwise omit the old enactments, and fortnitously we think have trusted the Sabbath to the conciences and veneration of our people-with no fines or imprisonment to serve as inducements for them to keep it. But is the Sabbath, generally or more than formerly dese-

In "our section," we have not perceived any diminution of regard for that holy day, presented by men without relation or refersince the Revised Statutes went into operation! The people go to church, as they were wont. The steres and groceries are closed-and the blast of the blacksmith shep s not heard. Neither is there any manufacturing on Sunday-within or without the sight and hearing of the churches.

The whigs always had these measures at heart, and, as they constitute the majority of the know-nothing lodges, will the pot from boiling, and the meat from frying doubtless engraft them on the know-nothing would you think of a parent, who when he sees his children behaving themselves, amiably and good, would seize an apple-tree switch, and holding it over their heads, threaten them with it, if they did not keep so?

Gov. Reid's annual message is brief, but contains many suggestions in regard to State policy. The amount of public debt of North Carolina, on the 31st of October, 1854, was \$2,897,280.31. The Common Schools, it but length. State stock (except Connersville) snys, have been in operation but a short time. The system is doing incalculable good. The conclusion of the message is as follows.

The bright prospect of our State affairs, I regret to say, is somewhat clouded by the reckless spirit of fanaticism, which threatons the violation of the Constitution and the dissolution of the Union. The conviction is growing dearer areas. tion. Then the Statesmen and Divines were content to take the Bible and the Constitution as the "touch-stones" of their faith, and the North and South could meet in a spirit the North and South could meet in a spirit of harmony, and unite in common effort to secure the blessings of civil and religious liberty. But how changed is the picture of the present day! Now these "higher law" men disregard the compromises of the Constitution, and are mischievously endeavoring to violate the rights of our property, and destroy our domestic peace and security. This is a question of paramount importance; and I recommend the General Assembly to declare firmly and decidedly, that we shall clare, firmly and decidedly, that we shall equire the compromise of the Constitution,

The Great Western Bank of this city, says the Terce Hante Journal, is winding up its business, and will close its doors as soon as the notes payable there are collected. Its notes are perfectly good, being properly secrued by public stock. The failure of Mr. Sturges of Cincinnati the principal stockholder, is the cause of its winding up.

ORROON APPLES. -The Oregonian records an exhibition of the finest apples ever seen in any country. Many of them measured fifteen and sixteen inches in circumference, and weighed 28 and 29 ounces. Fifteen or sixteen of them filled a half bushel. They were raised by Nathan Robinson, and a quantity of them have been sent to San Francisco by the Columbia.

THE SCOAR CROP. - The accounts of the Louisiana Sugar Crop, published the New Orleans papers, are all unfatted. They say the amount of sugar produced will fall short at least one-third, compared with last year, owing to a deficiency in the juice of the cane; but the quality of the sugar manufactured, is described as being much better, as the inice is richer. Planters are busy, grinding and rolling.

The Wayne Bank was principally owned by Mr. Daniel Beckel, of Dayton, who was reported to be a wealthy and honorable business man. Whether Mr. B. will sustain his reputation with the holders of the notes of Wayne Bank, who have to submit to a heavy shave in getting them all off their hands, is somewhat problematical.

When this Bank went into operation it was understood that several respectable gentlemen of this place and vicinity were connected with it, and we occasionally see a Wayne note with the name of a highly respectable gentleman of this place on it as President, but we presume it must have got there by fraud, as he is certainly too honorable to shave his own

The Democratic State convention met at Staunton. Col. Bayly, chairman, W. F. Richie and Robt. H. Hughes, secretaries. A committee of one from each district appointed to nominate permanent officers.— They reported Oscar M. Crutchfield, of Spot sylvania, president, and thirteen vice-presi

The secretaries as above confirmed. Confusion ensued on a motion to go into nomination for Governor. After a long debate upon the rules as to the casting vote akleford moved the convention would not make nominations for Governor and Lieut Governor, unless the candidates receive votes sufficient to represent a majority of the whole Democratic vote in the State:

Mr. Garnett offered a substitute, that they shall require a majority of the votes cast to nominate candidates for Governor, Lieut. Governor, and Attorney General, which was

adopted.

This is considered a triumph for the Wis party, it being the strongest in the convention Exciting times are expected. Efforts will probably be made to further amend by adopt ing the two-thirds rule.

The Democratic vote in the conven tion is 62,400. The whole democratic vote in the State is 70,000.

The remarkable and extraordinary prosperity of this Institution, and the ciannetly strong position and high character which it has attained, in so short a period, are attributable to the strict adherence to the true principles of Life Assurance on the part of its Board of Managers, and their efforts to place its affairs on a secure, sound, and impregnable foundation.

This histitution now presents to the Policy holder the first and most important consideration that should influence every one desiring to provide for his family by means of Life Assurance, or who may wish to appropriate his surgrus income to the most certain and profitable of all investments—the fundamental guaranty of security, solidity and perpetuity; the securing and placing beyond the possible contingency of disappointment, it e prompt cash payment of all its Policies, whenever due.

In addition to the security thus afforded, this Institution offers to insurers, for the whole term of life, the following advantages:

A large realized Fund, invested and rapidly accumulating at compound interest.

The prompt cash settlement of all losses, without deduction by "premium notes" or otherwise.

Regular divisions of the profits among those who pay the premiums, which are credited to the Policies, and are payable in cash, with the sums insured, after death.

This valuable Medicine, which has become celebrated for the number of extraordinary cures effected through its agency, has induced the proprietors, at the urgent request of their friends, to offer it to the public, which they do with the utmost confidence in its virtues and wonderful curative properties. The following certificates, selected from a large number are however, stronger testimony than the mere word of the proprietors; and are all from genilemen well known in their localities, and of the highest respectability, many of them residing in the city of Richmond, Va.

AGUE AND FEVER—Great Cure—I hereby certify that for three years I had Ague and Fever of the most violent description. I had several physicians, took large quantities of Quinine, Mercury, and I believe all the Tonics advertised, but all without any permanent relief At last I tried Carter's Spanson Mixture, two bottles of which effectually cured me, and I am happy to say I have had neither Chills of Fever since. I consider it the heat Tonic in the world and the only medi-

Mr. Luck says he has never known it to fail when taken according to directions.

Dr. MINGE, a practicing physician, and formerly of the City Hotel in the city of Richmond, says he has witnessed in a number of instances, the effects of Carter's Spanish Mixtrer which were most truly surprising. He says in a case of Consumption, dependent on the Liver, the good effects were wonderful indeed.

The Hydromagen is a valuable discovery for protecting
the feet from damp or cold, and therefore a preventative
of many Lung discusses, without any dectoring whatever.
The Hydromagen is in the form of a sole, and worn inside the hoot or slice. Its medicated character is a powerful antidote to discusse.

For Gentleman it will be found agreeable, waran, and
healthy, to wear in the coldent or ramiest weather, as the
foot cannot become wet if the Hydromagen is inserted.
Lades may wear the lightest souled boots or sloses in the
most inclement weather, with impunity; while Correliantion, so prevalent among the young of our country, may
be thwarted by their general adoption. They entirely supersade over-shoes, as the latter cause the feet to perspire
in a very unhealthy mantier, and, headeden, are not damgerous to wear to pedestriants in iety weather, like india
rubbers. While the latter cause the feet to appear extermety large, the Hydromagen, being a mere thin slice
of cork prepared, peculiarly placed maide, does not increase the size of the boot, or case the fiet to remely large, the flydromagen, being a mere the of cork prepared, peculiarly placed inside, does revase the size of the boot, or case the fact to app idy. To Children they are extremely valuable,

rease the size of the boot, or case the floot to appear unity. To Children they are extremely valuable, as they may engage in exercise with comfort and healthy effects. Their expense is so slight as to scarce need mention; besides, those who patronise them will find their yearly deter's bills much disminished thereby.

As the Hydromagan is becoming more known, its sale is increasing to an almost incredible extent. Last year, in London, Manchester, Birmingham, Liverpool, Glasgow, Leeds, Dablin, Paris, Antwerp, Humburg, and Berlin, our sales reached 1,732,450 pairs of Cork Soles. This year the number will far surpass that.

J. H. MeLean, St. Louis, Mo.—Dear Sir I was affliqued for fifteen months with rheumatism, so much that I was unable to attend to any business, my legs, arms, and fingers were swollen dreadfully. the muscles were contracted, and I suffered the mosi exeruciating pain. I applied some five or six bottles of Mustang Liniment; it had no more effect than so much grease. I obtained one dozen of bottles of Volcanic Oil Liniment of your agent Mr. Pike, for which I shall ever feel graneful to him, and in five days I was entirely well, and I take pleasure in recommending it to the public. And I also add that one of my horses got cast in the stable and was unable to stand up. In the morning I made one of my boys rub on some of your Liniment, and in three hours he could walk at out the yard, apparently that nothing had happened to him Mf. Davies and others of my neighbors were present at the time, and they concur with me in saying, that no planter should be without a supply of this invaluable medicine on hand. I remain yours, &c..
